Friday 1st May

Mrs Smith's bit...

We've now had six weeks of being at home. I hope you are doing well and are still managing to keep your minds and bodies active. Bradley I hope you had a great lockdown birthday on the 27th- did Mum make one of her brilliant cakes? Yum!

Thank you so much to all the people who have emailed me this week. It has been great to hear all your news. There are several children who I haven't heard from at all 😞- please drop the school office a quick email to tell me what you've been up to- I'd love to hear from you. 😊

MATHS: I know that many of you have been working on the White Rose Maths home learning. Unfortunately it looks like from next week they are possibly making some changes. From what I can tell the daily videos will still be available, but from Monday they are linking with the BBC Bitesize daily lessons and I think the worksheet and answers potentially may no longer be available, apart from for subscribing schools. I am not sure what this is going to look like yet, we will have to wait and see next week. I am really sorry about this as I thought it was an excellent resource. I do know that there are four weeks of lessons on White Rose for each year group. Depending on what next Monday brings, can I ask that you go back if necessary and use the lessons in the tab 'Week 1' and 'Week 2' if you haven't already done them? You will be working slightly out of order, but that shouldn't matter too much. As a staff team across Kymbrook and Thurleigh, we are looking at what to do going forward, but need to wait and see what the resources look like from next week. Thank you.

An update on my painting by numbers canvas:

Not much to see yet apart from an awful lot of sky!

That's it from me until next week. Keep safe and well.

Lots of love,

Mrs Smith

If you haven't emailed me yet, please try to join in by sending an update to our school office

kymbrook@ktfederation.co.uk Mrs Demir will forward it on to me. Even if you feel you haven't got much to tell me, I'd love to hear from you. And the children who have emailed- please do it again! Read on to hear news from Lions class...

Now it's over to you! What have you all been up to?

Niamh

Niamh has been enjoying the sunshine on long walks with her dog Tom and doing some gardening. She also had a family water balloon fight! Niamh has been trying very hard with her work at home, including Toe by Toe and TT Rockstars. Great job Niamh- keep it up! 😊

Finley

Finley has turned his creative talents from drawing to sorbet making. He first tried out strawberry and melon and his next idea is going to be coconut and mango. I'm not keen on ice cream, but I LOVE sorbet, just so you know Finley! 😊

Kieron

Kieron has sent me one of the best photos of the lockdown so far- look at this glowstick disco! It's brilliant! He's obviously been working on his footy skills and managed a new PB of 64 kick ups. Wow! He's also been doing Joe Wicks in the morning, enjoying family bike rides and developing his cooking skills. Kieron has also been doing plenty of home learning. Great job! 😊

Danielle

Danielle has been doing a brilliant job at keeping her home learning going. She is especially enjoying the White Rose Maths, as she likes how things are explained in the videos. She has also made great progress with her violin playing- practice makes perfect! One of Danielle's jobs is to make lunch each day for everyone working in the shop- she is getting extremely good at ham sandwiches and smoothies! That's fantastic to hear, well done! 😊

Jack

Jack has been keeping up his morning routine of reading, Newsround and quiz, spellings, White Rose maths, TT Rockstars and English. He spends his afternoons doing topic work and sports. Over the weekend he joined in with a virtual cub camp, which included making and sleeping in a den in the garden, cooking outside and other fun and games. This sounds brilliant and well done for winning the 'Most Luxurious Den' award Jack! 😊

Ruby

Ruby is getting on very well with some of the chocolate topic tasks.

Ruby and Lilly have also made these brilliant dolls. They are fantastic, well done girls! 😊

Lauren

Lauren sent me a brilliant email full of all the things she has been doing. She has been keeping up with a lot of school work, finished off her Egyptian makes and invented this wonderful chocolate bar. It looks delicious Lauren! She has been keeping up the Joe Wicks workouts every day (me too Lauren- I drag everyone out of bed for it!) and has been learning about Fair Trade. Thank you for your lovely email Lauren, I can't wait to get back to school too. 😊

Jonathan

Jonathan has enjoyed making this brilliant solar system model this week, as part of his topic menu. It's fantastic Jonathan. The other fab photo shows Jonathan with a two layered jelly (or jello as they call it in his house!) he made. It looks great. I think you have perhaps given other children some ideas this week! 😊

Maisie

Here are some great photos to show you from Maisie this week. She decided that she wanted to be green-fingered so has planted some tomato and strawberry plants and has been checking on them daily. Be patient Maisie! She was also inspired by my crafts to buy diamond painting and painting by numbers kits- can't wait to see your results Maisie. Crafts are great for keeping your hands and your mind busy. And look at this amazing photo of Maisie's experiments with tie-dye! These items are so brilliant and the best thing is that no-one else on the planet has things just like that! 😊

I'd love to feature you
all here next week! x
