

Meerkats: Week 6 Science: Identifying and describing animals from another part of the world.

Activity: Making a Guessing Game Book!

Please follow the link <https://www.youtube.com/watch?v=jyz8bOhPAFg&t=17s> to hear this great book and look on Google and/or just look up African animals in magazines, books and encyclopedias

Start the work with Monday's Science PDFs, (there are two.) Then it's just one Science PDF for each day for the rest of the week!

At the end of your work, why not reward yourself with this fun little game?
